PROJECT EXPERIENCE

Mealify — Recipe-Collecting, Meal-planning, List-generating app
- Assisted with the design and planning phase.
- Worked with a small team to build backend and database.

WORK EXPERIENCE

Virtual Field Tech, Vivint SmartHome, Remote WFH, September 2022 – Present
- Complete walkthroughs with customers over the phone to diagnose and repair issues with Vivint's Smart Home systems.
- I was part of this program from near the beginning as a pilot up to the present. I have trained new hires throughout the pilot and developed training materials for future recruits..

Field Service Pro, Vivint SmartHome, St. Louis MO, April 2018 – September 2022
- Installation and service of Vivint Smart Home Systems
- Heavy emphasis on sales and upgrades.
- Further experience with limited oversight.

Field Technician III, Spectrum, St. Louis, MO, October 2015 – March 2018
- Installation and service of Spectrum Cable equipment.
- Drove a company vehicle and had little to no manager oversight on day to day operations.

EDUCATION

LaunchCode, LC101 Programming Course — 2023
Jefferson College, AAS Computer Science (Incomplete) — 2011
